

助理机器人

产品介绍

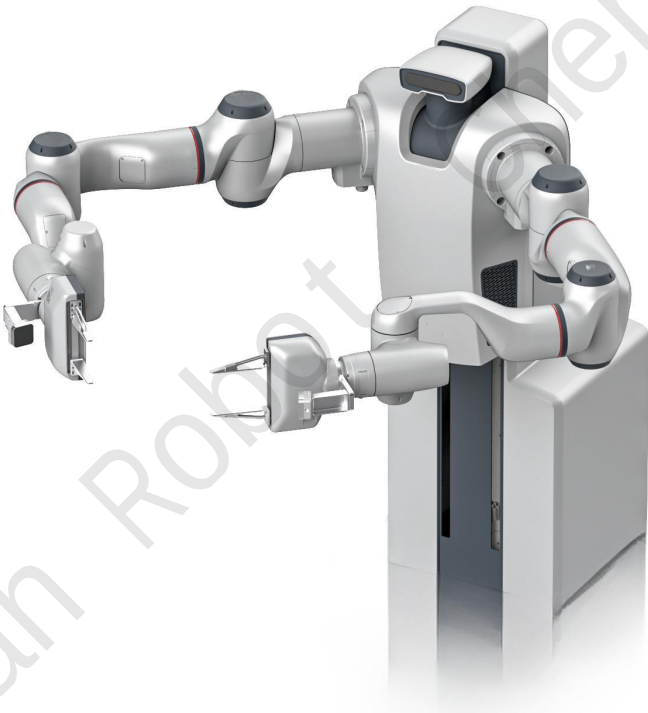

H10-W是面向科研、教育、商业及消费领域的智能机器人，运动机构由轮式底盘与两台7自由度手臂及线性升降躯干组成，支持使用者通过语音指令（如物体取放指令）进行交互，机器人按照使用者的语音指令，执行目标抓取、运送及放置任务。

核心特点

- 自由度：全身21+（可选配二指夹爪或灵巧手）
- 双臂：内置关节扭矩传感器的7自由度机械臂（Diana 3
- 传感与交互模块
 - 环境感知：2D激光雷达、3D激光雷达、4个深度相机
 - 运动感知：六轴IMU（惯性传感模块）
 - 语音交互：麦克风阵列+扬声器

机器人参数

整机重量（包含电池）	230 kg	整机尺寸	934 × 929 × 1820 mm
全身自由度（不包含手）	21+	躯干升降最大速度	300 mm/s
单臂额定负载	3 kg	单臂最大负载	7 kg
分布式通信接口	Fast DDS、gRPC	最大通信频率	1 KHz

Assistant Robot

Product Introduction

It is an intelligent robot designed for research, education, commerce and consuming field. It includes a dual-wheel differential mobile base and a humanoid torso capable of vertical motion, integrated with two 7-DoFs arms. It supports user interaction through voice commands (such as object pickup and placement instructions). H10-W can perform target grasping, transportation, and placement tasks based on the user's voice commands.

Core Features

- DoF: 21+ in total (optional 2-finger gripper or dexterous hand)
- Arms: 7-DoF torque-sensing arms for safe and flexible operation
- Sensing and Interaction Modules: 2D LiDAR, 3D LiDAR, 4 depth cameras (head/wrists/base-mounted), 6-axis IMU, microphone array, and speaker

Parameters

Weight (w/ battery)	230 kg	Dimension	934×929×1820 mm
Degree of Freedom (w/o hands)	21+	Max. Lifting Speed of Torso	300 mm/s
Rated Payload of Single Arm	3 kg	Max. Payload of Single Arm	7 kg
Distributed Communication Interface			Fast DDS、gRPC
Max. Communication Frequency			1Khz
